Display [7] is blinking with [A]

Level selected

# **Operating time**

Each cooking zone is equipped with an operating time limitation: the cooking zone is automatically switched off after a certain time without any change of settings. This time is varying according to the selected power level as described in the table below.

Power level	Max operating time (hours)
1	6
2	6
3	5
4	5
5	4
6	1,5
7	1,5
8	1,5
9	1,5

# Examples of cooking power setting

(The values below are indicative)

4 to 5	Water	Steamed potatoes, soups, pasta,		
		fresh vegetables		
6 to 7	Medium cooking	Meat, lever, eggs, sausages		
	Simmering	Goulash, roulade, tripe		
7 to 8	Cooking	Potatoes, fritters, wafers		
9	Frying, roosting	Steaks, omelettes, fried dishes		
	Boiling water	Water		

# MAINTENANCE AND CLEANING

#### Switch-off the appliance before cleaning.

Do not clean the hob if the glass is too hot because they are risk of burn.

- Remove light marks with a damp cloth with washing up liquid diluted in a little water. Then rinse with cold water and dry the surface thoroughly.
- Highly corrosive or abrasive detergents and cleaning equipment likely to cause scratches must be absolutely avoided.
- Do not ever use any steam-cleaner or pressure washer
- Do not use any object that may scratch the ceramic glass.
- Ensure that the pan is dry and clean. Ensure that there are no grains of dust on your ceramic hob or on the pan. Sliding rough saucepans will scratch the surface.
- Spillages of sugar, jam, jelly, etc. must be removed immediately. You will thus prevent the surface being damaged.
